

Connect to eduroam

Use the geteduroam app to set up secure Wi-Fi on your device.

EVERY DEVICE When asked for your school, search for **Manhattan Area Technical College**. Sign in with your **ManhattanTech account**, for example **firstnamelastname@manhattantech.edu**.

iPhone / iPad

Open the **Apple App Store** and search for **geteduroam**.

Install the app, open it, choose your school, then follow the sign-in prompts.

MacBook / iMac

Open the **Mac App Store** and search for **geteduroam**.

Install the app, open it, choose your school, then sign in.

When macOS asks, open **System Settings** and approve the eduroam profile.

Android / ChromeOS

Open the **Google Play Store** and search for **geteduroam**.

Install the app, open it, choose your school, then follow the sign-in prompts.

Windows

Open a web browser and go to:

letswifi.matc.net

Download the Windows installer and follow the prompts to configure **eduroam**.

Linux

Open **Flathub** and search for **geteduroam**.

Install the app, open it, choose your school, then follow the sign-in prompts.

Having trouble?

Open a ticket with the **ManhattanTech IT department**.
