

This course introduces the principles and practices of phlebotomy. Participants will learn terminology and procedures for infection control and safety while developing skills in specimen collection and equipment use. **The course alone does not grant national certification in phlebotomy.** However, instruction is aligned with national standards and may fulfill partial requirements toward certification through the American Society of Clinical Pathology (ASCP). *

The course requires independent, online work. **Lecture material is taught ONLINE and phlebotomy skills are taught in mandatory face-to-face labs.** Students must be able to use a computer to access and use course materials, and to submit course assignments.

Class/Lab Dates: (Thursdays) January 21 through April 29, 2021; 5:30 pm to 8:30 pm; 14 class/lab meetings.

Course cancellation may occur at MATC’s discretion

Location: Manhattan Area Technical College, Room 302-A

Required Textbook: **Phlebotomy Essentials, 7th edition**, Ruth McCall, ISBN-13: 9781496387073.

Information on MATC Bookstore website <https://manhattantech.ecampus.com>. Please allow 2 weeks for delivery of books

Additional Information:

- **Third party Billing Agreement:** Payment, a purchase order, or a signed authorization to bill a company or agency as a third party must accompany the student’s course enrollment. Companies and agencies requesting to be billed as third party agree to pay all items authorized regardless of the performance of the student.
- **Refund Policy:** Students will receive a full refund if written notification is received at MATC front office, during office hours at least 2 days prior to the course start date. **No refunds after the course start date.**

***For national certification as a Phlebotomy Technician, PBT (ASCP), the ASCP Board of Certification specifies requirements beyond the scope of this Phlebotomy course. To meet these requirements students may enroll in ALH 1202 with instructor approval after successful completion of ALH 101.**
